PROFESSIONAL SUMMARY

Python Developer with 1.3 years of experience in Python, Django, MySQL, and REST APIs. Skilled in web application development, API integration, debugging, testing, and database management. Familiar with Git and Agile development practices, with a strong interest in building reliable software solutions.

EDUCATION

St Marys group of institutions Guntur
B.Tech in Artificial Intelligence and Data Science

2020-2024
CGPA 7.53

WORK EXPERIENCE :

Datavalley.Ai | Junior Software Engineer

Vijayawada | Jun 2024 – Apr 2025

- Developed secure web applications using Python, Django, MySQL, HTML, CSS, and JavaScript.
- Enhanced Django CI/CD pipelines and automated testing, reducing deployment time by 40%.
- Automated code deployment, test execution, and reporting to improve release efficiency.
- Applied ML techniques using Python, Pandas, NumPy, and Scikit-learn for bug analysis and predictive maintenance.
- Improved bug detection accuracy by 30%+ through data-driven testing and analysis.

Datavalley.Ai | Full Stack Python Developer

Vijayawada | Oct 2023 – Apr 2024

- Developed full-stack web applications using Python, Django, MySQL, HTML, CSS, and JavaScript.
- Optimized database schemas and SQL queries, improving application performance by 35%.
- Built responsive UI and backend integrations for scalable web solutions.
- Assisted in deployment and environment setup for smooth software delivery.
- Used Git/GitHub for version control and collaborative development.

TECHNICAL SKILLS

- **Programming** : Python
- **Web tools** : Html, Css, Javascript
- **Frameworks** : Django, React.js, Bootstrap,
- **Database** : MySql
- **Tools & platforms** : Git ,Github, Vercel, Render , Vscode , Cursor
- **Common Skills** : Fundamentals of Machine learning , OpenAPI, Hugging Face Transformers

PROJECTS

AI Disease Symptom Checker

- Developed an AI-powered healthcare application using Python, Django, GPT-based NLP, and MySQL for symptom analysis and disease prediction.
- Built a scalable backend with REST API integration for real-time health data processing.
- Integrated NLP models to provide personalized medical suggestions, diet plans, and preventive measures.
- Improved prediction accuracy by 85%+ and reduced manual assessment time by 70% through AI automation.
- Optimized backend performance to support 100+ concurrent users.

MeetNow – Scalable Video Conferencing System

- Developed a real-time video conferencing platform using Django, WebRTC, Redis, and Django Channels.
- Implemented user authentication, live chat, and video/audio streaming features.
- Reduced communication latency by 40% using Redis and asynchronous processing.
- Improved scalability and session management to support 50+ concurrent users.
- Built a responsive frontend and optimized backend for stable, low-latency communication.

CERTIFICATIONS & ACHIEVEMENTS

- Python101 DataScience

- Microsoft Azure Ai Fundamentals (AI-900)
- 100 Days of coding challenge [Datavalley.ai](https://datavalley.ai)
- Bootcamp & Hackathon [Datavalley.ai](https://datavalley.ai)

SOFTSKILLS

Time Management, Debugging, Team Collaboration, Leadership
